

COUNTER-BULLY CHAT-BOT

BY DPSG ROCKERS

WE'VE BUILT A CHATBOT THAT HELPS
THE STUDENTS IN INSTITUTIONS
FIGHT BACK AGAINST THE
MISBEHAVIOR DONE WITH THEM, AND
REPLY AND RESOLVE THE BULLYING
CASE NON-VIOLENTLY.

WHY WE'VE CHOSEN THIS PROJECT...

We are students from 10th grade, and by this time every contemporary understands the **importance** support from the **society**.

We have seen many **bullying** cases, whether in picturization or live, and they deeply **disturb** the victims **mind**, which is not very **healthy** thing to **happen**. Thus, to take **necessary actions** against this we have made a **Counter-Bully Chat-bot** which we think will help the **buds blossom**.

HOW OUR PROJECT HELPS THE STUDENTS ALL OVER THE ALTERNATIVELY:

**GOOD
HEALTH AND
WELL-BEING**

**PEACE,
JUSTICE AND
STRONG
INSTITUTIONS**

OUR PROJECT ADDRESSES
SOME **UNITED
NATIONS
SUSTAINABLE
DEVELOPMENT
GOALS**, THAT THOSE TEND
TO BE - **GOOD HEALTH
AND WELL-BEING,
AND PEACE,
JUSTICE AND
STRONG
INSTITUTIONS.**

HOW WE USE AI IN OUR PROJECT:

In our project, basically, the **person** who's bullied and **talking** to our **AI** enabled **chatbot**, the chatbot would be able to **find** the **mood** of the user as if he's **angry** or **sad** and will **respond according** to the mood of the user and the **words used** by the user.

IMPACT WE WISH TO **CREATE:**

We want **no one** to feel **left out** or sad because of someone who is bullying him or her. Bullying is a **serious problem**, as **vigorous harassment** can lead one to take one's life or someone else's. **Because** a person is **bullied**, he **stops enjoying** his life, and his **mind** is always thinking about a **matter** that doesn't allow him to **concentrate** on **things** that are **more important** to his life. We can **prevent** Bullying through our chatbot. **Human** beings have a **tendency** to talk or **type** very **well** when they are **angry** or **depressed** so our **chatbot** can **talk** with the **bullied person** and help him **solve** the **problem**. We **try** to **resolve** the **issue** in the aftermath via a few **counselling sessions** with **involved persons/students**.

WHAT DID WE LIKE ABOUT THE IBM AI PROGRAM?

**WE LIKED THE CBSE-IBM AI
ENABLED SEWA PROGRAM
BECAUSE IT HELPED US TO THINK
BEYOND OUR LEVEL OF THINKING
AND TO DEVELOP SOMETHING
THAT WOULD BENEFIT SOCIETY
AND THE WORLD.**

OUR LARGE AI VISION FOR THE FUTURE (IRRESPECTIVE OF THIS PROJECT)

We **personally** have the **vision** for the next **milestone** in AI in **future** as a **world** of **people** **surrounded** by AI – Mass district **monitoring** and **security systems** – **powered** by the most **efficient AI companies** in the **world**, just like the **CTOS** (only for good use, though) as **DESCRIBED** in the **FAMOUS GAME** series - **WATCH_DOGS**

HAVE SOME

STATISTICS

More than half of people under 25 have experienced bullying at some point.

**People who are
bullied, often go
on to bully others.**

**More than a
third of people
go on to
develop Social
Anxiety and
Depression as a
direct result of
bullying.**

Almost a quarter of those who have been bullied have had suicidal thoughts.

Those who bully are far more likely to have experienced stressful and traumatic situations in recent times.

**17% of people
have experienced
cyberbullying.**
