CBSE-IBM AI Enabled SEWA Program Video

These are the requirements for the project showcase video

Please send it to us in the format mentioned below

Name of student(s) and school introduction: Mention in the email

The following points can be in two formats or a combination of both

- Video (You can record a video of yourself explaining the following points)

- Pictures (you can also send relevant pictures or videos of your own or from the internet that can support and showcase your ideas)

- Project idea using AI [the name of the project and what it does in short]
- Why you have chosen this problem [how you connect or why you want to do this]
- Which UN SDG it addresses
- How AI is used in your project solution [what is your concept of AI in this, how do you apply AI in your project]
- The impact you wish to create with your project
- Showcase any working demo or prototype [a sample if you've tried and tested your project, you can showcase the working of your hardware, software or your full prototype as a separate video]
- What you liked about the IBM AI program (training and mentoring) and how it helped you
- Your large AI vision for the future [irrespective of your project, how do you personally see AI in the future]

Note: The content you send will form the main content of the video so be creative and innovative.

Please upload your video and supporting pictures to this Google Drive. Create a folder with your project name and add the materials there. Once you upload please let us know via email.

https://drive.google.com/drive/folders/1PAudtsHEptuh9HzdZZgfCAbTazAMZbYF?usp=sharing

Important points to note:

- Please record the videos in landscape mode.
- You can share your answers in multiple video clips.
- If you have a team, then you can split the questions between your teammates and share separate video recordings.
- You can combine a couple of questions together if you wish in one video clip.
- Do not read out the question in the video just make sure the answers to different questions are covered.
- You can get creative with your video. We will use the clips and pictures you send to create the final video.
- Make sure there is no background noise when you are recording and that there is proper lighting.
- Please ensure the combined length of all the answers you share is within 2 minutes.
- If you have any queries, please feel free to reach out to us.

Here is a sample video for your reference. You can take inspiration from this while you share your video clips with us. (This is just a reference video and the final showcase video will be different from this.)
